

Declaration of conformity for freedom from bisphenol A

Regulation (EU) 2024/3190 regulates the use of bisphenol A (BPA) and other bisphenols in materials that come into contact with food.

Our materials have been tested in accordance with the applicable regulations by our material suppliers and do not contain any banned bisphenols or bisphenol derivatives that fall under the regulation's provisions. Bisphenol A is not used at any stage of the formulation or manufacturing process, not even as a raw material, additive or processing aid.

We hereby confirm that our products are free from bisphenol A and comply with the requirements of Regulation (EU) 2024/3190.
